

oomph::GeneralisedElement

The diagram illustrates a generalization relationship between two classes. The superclass, 'oomph::GeneralisedElement', is enclosed in a dashed rectangular box at the top. The subclass, 'oomph::DisplacementControlElement', is enclosed in a solid rectangular box at the bottom. A vertical arrow points from the top of the subclass box to the bottom of the superclass box, indicating that the subclass inherits from or specializes the superclass.

oomph::DisplacementControlElement
