

oomph::GeneralisedElement

```
graph BT; A[oomph::ImposeFluxForWomersleyElement< DIM >] --> B[oomph::GeneralisedElement];
```

The diagram illustrates an inheritance relationship between two classes. The base class, `oomph::GeneralisedElement`, is enclosed in a dashed rectangular box at the top. The derived class, `oomph::ImposeFluxForWomersleyElement< DIM >`, is enclosed in a solid rectangular box at the bottom. A vertical arrow points from the top of the derived class box to the bottom of the base class box, indicating that the derived class inherits from the base class.
